

## Dearborn Public Schools and Online Learning

[Dearborn Public Schools](#) have used the iLearn program in their installation of Moodle. Students are able to access coursework from any computer.

The completion of Sixth Grade Capstone Projects has been facilitated through the use of iLearn. Michigan Grade Level Content Expectations (GLCEs) pertaining to geography, history, economics, government are addressed by this online coursework.

Capstone Projects propose a plan for the future based on research; investigate linking historical and contemporary issues; and allow students to do the following:

- Use technology
- Collect data
- Develop a product or performance
- Apply content from the core disciplines
- Demonstrate ability to participate in public discourse
- Make reasoned decisions
- Demonstrate citizen involvement
- Use methods of inquiry
- Compose persuasive civic essays using reasoned argument

Teacher Librarians [Cynthia Alvarado](#), [Nancy Hmayed](#), and [Bruce Pantaleo](#) have kindly shared these materials used to support Capstone Projects and online learning:

- [Capstone Project 6-8](#)
- [Landforms Grade 6](#) (login with username: mlincoln; password: capst0ne)
- [6+1 Writing Traits](#)

Please contact [Kathleen McBroom](#), Teacher Leader for Library, Media and Automation for the Dearborn Public Schools, for additional information.
